The present search report has been drawn up for all claims

EPO - European Patent Office

Place of search

The Hague

Date completed by the search

28 June 2012

Ex. Inv.

Noë, Veerle

CATEGORY OF CITED DOCUMENTS

- X : particularly relevant if taken alone
- Y : particularly relevant if combined with another document of the same category
- A : technical and background
- C : non-patent literature
- F : prior art cited document

T : theory or principle underlying the invention

E : earlier patent document not published on or

one the filing date

D : document cited in the application

L : document cited for other reasons

A : member of the same patent family, corresponding document

CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing claims for which payment was due.

- Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due and for those claims for which claims fees have been paid, namely claim(s):
- No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due.

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:
- The present supplementary European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims (Rule 164 (1) EPC).

LACK OF UNITY OF INVENTION
SHEET B

Application Number

EP 11 17 1153

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 1-14(partially)

an immunogenic composition comprising a fusion polypeptide comprising one or more fragments from the starvation induced antigen with SEQ ID No:14

2. claims: 1-14(partially)

an immunogenic composition comprising a fusion polypeptide comprising one or more fragments from the starvation induced antigen with SEQ ID No:16

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 11 17 1153

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The numbers are as contained in the European Patent Office CDP file on. The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
